## BIOGRAPHY TURINI E WERICH

Turini & Werich was born from a common denominator, the love of beautiful things of its two creators: the architect Carlotta Turini and the photographer and designer John Werich. An Italian and a Swede who share a passion for the same city, Florence. Inspired by its eternal beauty, art and history but also by the traditional craftsmanship of a company, the Turini Furniture makers, which still today make quality products, with the care and savoir-faire typically Italian. A continual research which results in exclusive furniture, obtained thanks to original techniques and the ability to combine the finest woods with metals, marble and precious textiles.

### CARLOTTA TURINI

Always in search of beauty, Carlotta grew up in Pontedera some 30 kilometers west of Florence. She moved to Florence to study and graduated from the faculty of Architecture at the University of Florence. Before opening her own architecture studio in 2005, she worked for the renowned architect Guido Ciampi.

Since starting her studio, Carlotta has worked on both new builds and renovations. She has worked on everything from private homes, studios, shops and showrooms to hotels and holiday homes. Her style ranges from modern classical to contemporary with special interest in restoration work.

### JOHN WERICH

John grew up in an art and design loving family in the south of Sweden and moved 2006 to Florence to study interior design and art history. Since then he has worked as an interior and garden photographer and writer for international interior, fashion and garden magazines around the world.
